Our 4 channels

GrabMyo canonical F1, F5, F10, F14

Ring 1 · flexor

FCR — flexor carpi radialis

Ring 1 · extensor

ECR — extensor carpi radialis

Ring 2 · flexor

FDS — flexor digitorum superficialis

Ring 2 · extensor

EDC — extensor digitorum communis

One flexor + one extensor per ring across the two proximal rings of the 2 x 8 forearm setup, giving the interleaved [flexor, extensor, flexor, extensor] geometry the deployed MyoWare rig mirrors on Teensy pins A0, A1, A2, A4.
Anatomical diagram adapted from
Pradhan et al., GrabMyo dataset (PhysioNet).
